

QUALITY ASSURANCE STATEMENT

Rock Civil Engineering Ltd will strive to achieve the highest possible quality standards in its products and services, through constant vigilance, checks, reviews and staff feedback.

It is the policy of Rock Civil Engineering Ltd, to manage its activities in such a way that it promotes the highest quality standards.

The company is committed to continual improvement of its quality standards and intends to achieve this by setting clear objectives and regular monitoring against them.

Rock Civil Engineering Ltd will;

- Ensure that all its employees are aware of the quality standards required from their activities and the benefits of improved performance.
- Provide access to information on the required quality standards (Sewers for Adoption, Highway Construction, NHBC standards and LA standards).
- Comply with all existing regulatory legislation, consents and codes issued at European, National and local levels and adopt a pro-active stance in anticipating future, more stringent regulatory requirements.
- Design, operate and maintain all plant and equipment to the highest practicable standard and improve working practices as and when cost effective technology becomes available.
- Minimise waste throughout the company and aim for waste free processes wherever possible through better utilisation of raw materials, energy and water, increased use of renewable, reusable or recyclable materials and the development of a strategy for minimising waste at source.
- Develop effective means for responding to accidents or emergencies and thereby avoiding or minimising environmental damage.
- Deal only with reputable, registered waste carriers for removal and disposal of waste unavoidably generated by our work.
